Structured products are investments that are linked to the stock market. Unlike most other types of investment, the levels of risk and the conditions for positive returns to be generated are 'defined by contract', meaning they are legal obligations for the issuer.

The following 'If/then...' summary provides a basic summary of the key contractual terms, conditions, risks and potential outcomes of the Long Income Plan – Option 2.

<b>IF...</b>	on quarterly dates from the start of the investment term to the tenth anniversary, the FTSE 100 FDEW closes at or above 75% of the start level ...	<b>THEN</b>	You will receive the 1.1875% income payment for that quarter and any missed income payments from previous quarters.
<b>AND IF...</b>	on quarterly dates from the third to the tenth anniversary, the FTSE 100 FDEW closes at or above 110% of the start level ...	<b>THEN</b>	you will receive the 1.1875% income payment for that quarter, any missed income payments from previous quarters and your original investment will also be repaid. The plan will then mature early and close.
<b>IF NOT...</b>	if, at the end of the investment term, the FTSE 100 FDEW closes below 75% of the start level, but at or above 50% of the start level ...	<b>THEN</b>	you will receive no income payment for that quarter, but your original investment will be repaid.
<b>IF NOT...</b>	if, at the end of the investment term, the FTSE 100 FDEW closes below 50% of the start level ...	<b>THEN</b>	the amount of your investment that is repaid will be reduced by 1% for every 1% that the FTSE 100 FDEW is below the start level.
<b>AND IF AT ANY POINT...</b>	the Issuer and Counterparty Bank fail and cannot meet their obligations (for example, making payments due to investors) ...	<b>THEN</b>	you will probably receive back less than you invested. Both the potential returns of the plan and the repayment of your investment depend on the financial stability of Société Générale.

The 'If/then...' summary only provides a basic summary of the key contractual terms of the plan. To understand the plan fully, you should read the plan brochure and plan application pack, which describe the features of the plan, including the potential returns and risks, and the terms and conditions, of investing in the plan. As well as the plan brochure and plan application pack there are other documents available to you, which we recommend you consider with your Professional Adviser, before deciding to invest in the plan.

This plan has been designed for professionally advised investors, who are clients of authorised and regulated investment firms, investing as part of a diversified and balanced portfolio. **As with all forms of investment, there are risks involved. This plan does not guarantee to repay the money invested. The potential returns of the plan and repaying the money invested are linked to the level of the FTSE 100 FDEW and also depend on the financial stability of the Issuer and Counterparty Bank. You should only consider this plan if you understand and accept the risk of losing some or all of any money invested.**

# 'IF/THEN...' SUMMARY

---

**It is important that you carefully consider the current level of the FTSE 100 FDEW, the level of its fixed dividend and the outlook for its future level. You can find information about this on pages 9-11 of the plan brochure. This plan is designed for investors who have a positive view of the future level of the FTSE 100 FDEW, over the medium to long term.**
