Core business areas

Headquartered in London, the Alpha Real Capital family of companies (*'Alpha'*) was founded in 2005, when Alpha Real Capital was established as an international, co-investing, investment management and wealth management solutions business:

- Alpha Real Capital sits at the heart of the Alpha family of companies, which benefit from common ultimate member ownership

Alpha's 130+ strong team operates across the UK, Europe and Asia, through specialist platforms, focused on 4 core areas: real estate investment management; long income / index-linked income; renewables / infrastructure; and wealth management solutions

The *'Alpha way'* is to identify teams with specialist experience and expertise in strategic areas of interest and to back and support these teams to develop successful platforms:

- Alpha platforms benefit from centralised resources, including: financial; operational; compliance; research; marketing; business development and capital-raising
- ... and from Alpha's fundamental interest to *'do the right things'*

The *'Alpha DNA'* is evident across the Alpha platforms, funds, products and services:

- attractive risk / return profile investments for investors, with exemplary support and service for business partners / professional advisers and investors

Alpha engages with institutional investors, professional investors (including family offices, UHNW and HNW private investors) and professionally advised retail investors:

- Alpha platforms include TIME Investments and Tempo Structured Products

- **This powerpoint provides our TICS Scorecards Monthly Movement**
 - please also see our *TICS: Introduction and overview* presentation
 - and our *TICS: Methodology (scoring and weighting)* presentation
 - we also provide a *TICS: Workshop* presentation for professional advisers:
... including a video webinar recording: <https://tempo-sp.com/newsroom/recorded-video-webinars>

- **We publish TICS to support professional advisers in their research and due diligence responsibilities: and as part of our approach to providing transparency of our processes:**
 - but it is important that professional advisers who use TICS understand what TICS is and what TICS is not
- **What TICS is:**
 - we developed TICS for internal purposes to aid us in objectively researching and considering prospective and ongoing issuer / counterparty financial strength / credit risk
 - TICS compiles multiple factors, across various categories pertinent to assessing and considering financial strength / credit risk, using a robust methodology and scoring system
 - the widely recognised measures and indicators of financial strength / credit risk and scoring provoke and support detailed and objective consideration, understanding and comparison, of issuers / counterparties
- **What TICS is not:**
 - **TICS is *not* independent research or an investment recommendation**
 - we do not provide any warranty regarding the TICS, the data, its methodology or scoring: and we expressly exclude any liability for any judgement or interpretation based upon or influenced by TICS
 - professional advisers should reach their own judgement of issuer / counterparty financial strength / credit risk
 - while the scoring system within TICS '*ranks*' issuers / counterparties, professional advisers should understand that this is not the intended purpose of TICS: ***the purpose of TICS is to provoke and support detailed and objective analysis, assessment, comparison, consideration and understanding of issuers / counterparties***

- **Every month, we monitor the monthly movement within TICS, including the TICS Amalgamated Scorecard and the TICS Category Scorecards:**
 - we identify and highlight movement up and down the rankings
 - we draw attention to any issuer / counterparty that moves up or down by more than 5 places

- **TICS Amalgamated Scorecard**
 - overall, the TICS Amalgamated scores for March are lower (i.e. improved) compared to February, on average, driven by narrowing CDS levels
 - the following bank(s) worsened by 5 places or more: Credit Agricole
- **TICS Category Scorecard: Credit ratings**
 - no banks moved by 5 places or more
- **TICS Category Scorecard: CDS**
 - the following bank(s) improved by 5 places or more: Barclays
 - the following bank(s) worsened by 5 places or more: Aviva
- **TICS Category Scorecard: Fundamentals (balance sheet):**
 - the following bank(s) worsened by 5 places or more: Credit Agricole; RBS; Bank of Ireland
- **TICS Category Scorecard: Fundamentals (market indicators):**
 - the following bank(s) improved by 5 places or more: State Street; Lloyds; Prudential; Deutsche Bank
 - the following bank(s) worsened by 5 places or more: Danske Bank; Credit Suisse; Nomura

- **It should always be understood that:**
 - structured products are not suitable for everyone
 - past performance is not a reliable indicator of or guide to future performance and should not be relied upon, particularly in isolation
 - the value of investments and the income from them can go down as well as up
 - the value of structured products may be affected by the price of their underlying investments
 - the potential returns of a structured product and the repayment of money invested in a structured product depend on the financial stability of the issuer and counterparty
 - capital is at risk and investors could lose some or all of their capital
- **The ‘*Important risks*’ section of our website highlights the key and other risks of structured products, in addition to explaining important information for professional advisers who wish to access the current products area of our website and who may use our structured product plans with their clients:**
 - www.tempo-sp.com/home/important-risks
- **Professional advisers should access and read the relevant plan documents relating to any structured product plan of interest, in particular: the plan brochure; plan application pack, including, the terms and conditions of the plan; and the issuer’s securities prospectus, final terms sheet and key information document (KID), before making a recommendation to their clients**
- **Professional advisers should not invest in, or advise their clients to invest in, any investment product unless they and their clients understand them, in particular the relevant risks**
