Understanding what TICS is: and what TICS is not ...

- We publish TICS to provide transparency regarding our internal processes and to provide a resource to support professional advisers in meeting their regulatory research and due diligence responsibilities:
 - but it is important that professional advisers using TICS understand what TICS is: and what TICS is not

What TICS is:

- we developed TICS for internal purposes in order to aid us in analysing, assessing, understanding and comparing issuers / counterparties, to help us identify strong issuers / counterparties in our role as an independent plan manager able to select and deal with issuers / counterparties without bias
- TICS compiles multiple Factors across various Categories pertinent to assessing and considering issuer / counterparty financial strength / credit risk, using a robust methodology, including a scoring system
- the widely recognised measures and indicators of financial strength / credit risk and scoring system provoke and support more detailed and objective analysis, consideration and understanding - including comparison of issuers / counterparties

What TICS is not:

- TICS is not independent research or an investment recommendation
- we do not provide any warranty regarding the TICS, the data, its methodology, weighting or scoring: and we expressly exclude any liability for any judgement or interpretation based upon or influenced by TICS
- professional advisers should reach their own judgement of issuer / counterparty financial strength / credit risk
- while the scoring system within TICS 'ranks' issuers / counterparties, professional advisers should understand
 that this is not the intended purpose of TICS: the purpose of TICS is to provoke and support detailed and
 objective analysis, consideration and understanding including comparison of issuers / counterparties

TICS Monthly Movement ...

- Every month, we monitor the monthly movement within TICS, including the TICS Amalgamated Scorecard and the TICS Category Scorecards:
 - we identify and highlight movement up and down the rankings
 - we draw attention to any issuer / counterparty that moves up or down by more than 5 places
